BlueScope Steel Limited

An International Steel Solutions Company

BlueScope Steel is a world leader in quality coated steel products and innovative steel solutions. The company began manufacturing steel in 1915, and has grown to become a global business with over 75 manufacturing plants in 16 countries.

BlueScope Steel is a leader in steel coating technology with a range of metallic coated and painted steel. It is the world's largest manufacturer of ZINCALUME® steel (55% Aluminium/Zinc coated-steel) and a leader in prepainted steel products for the building & construction and, manufacturing sectors. Globally, BlueScope Steel is the largest Building and Construction steel rollformer and the number 1 Pre-Engineered Building provider.

BlueScope Steel (Thailand) Limited

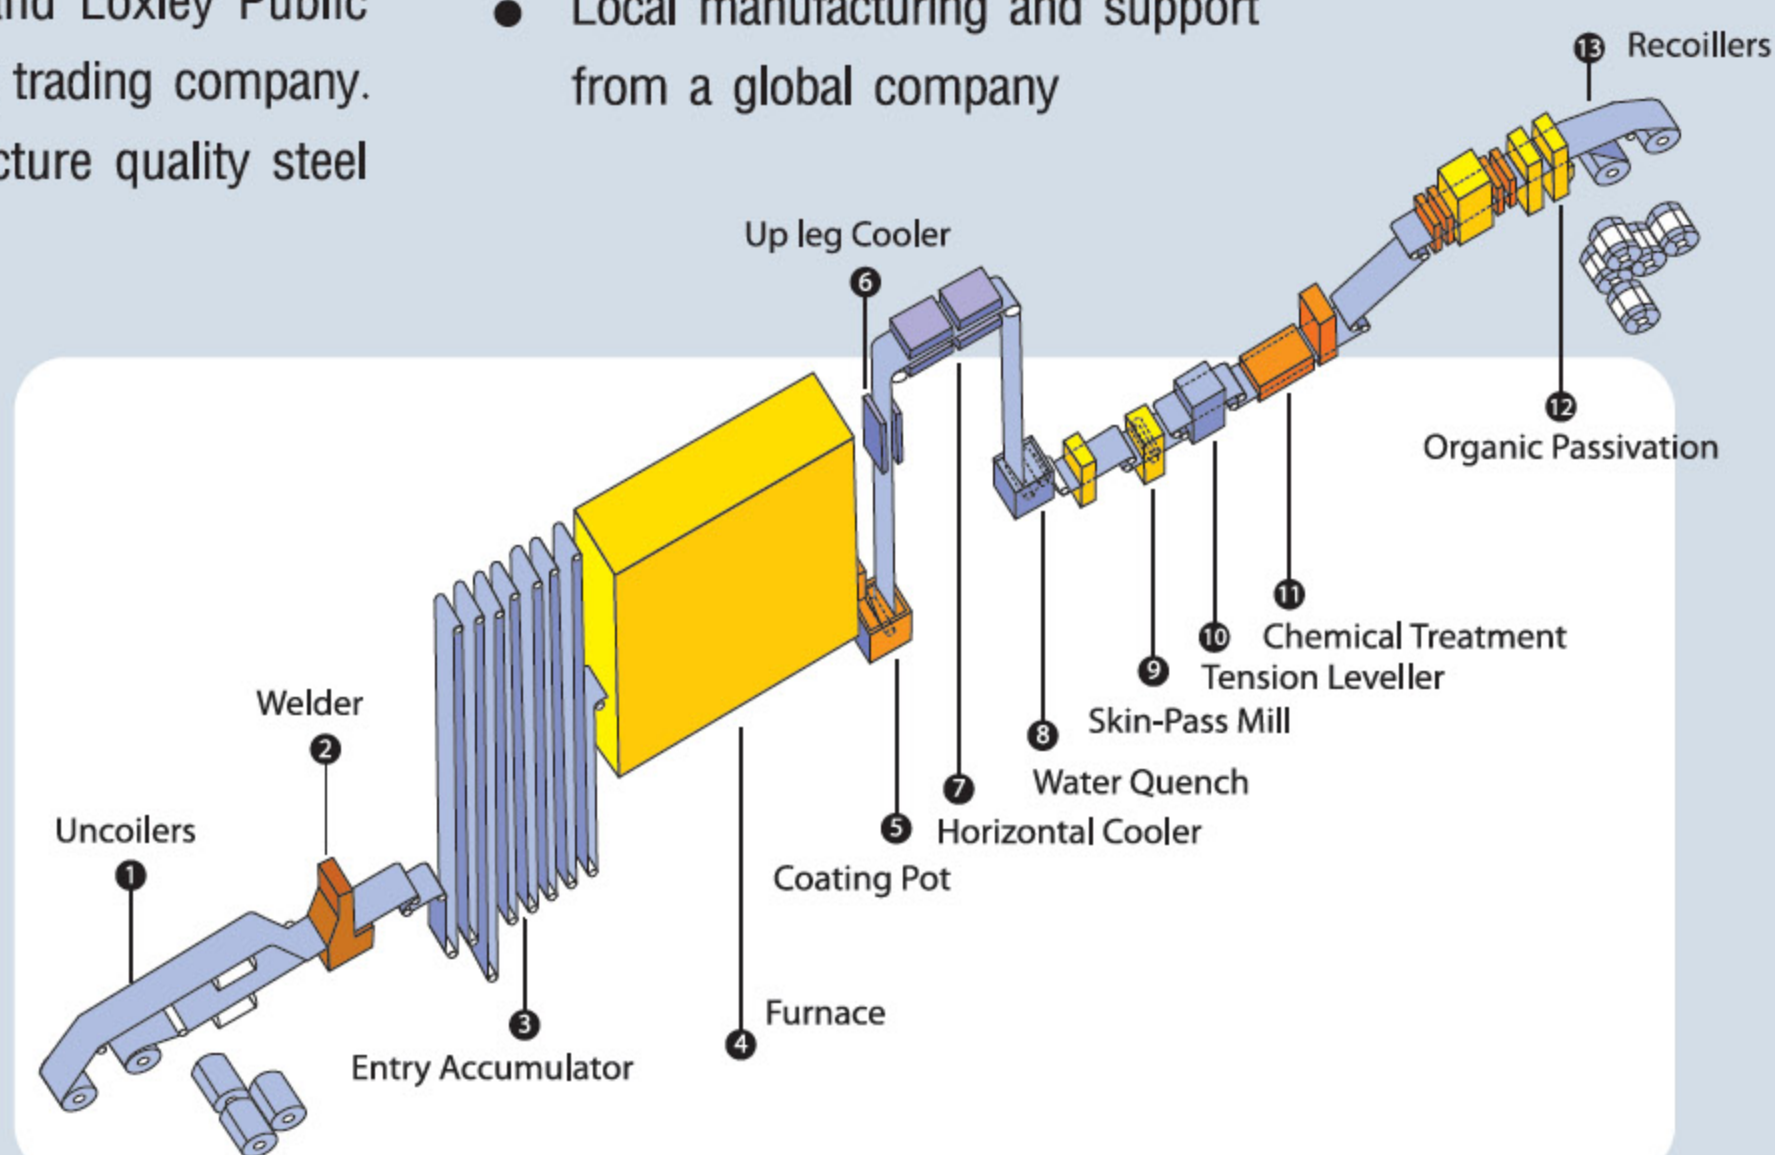

Your Partner In High Quality Coated Steel

BlueScope Steel (Thailand) Limited is a joint venture between BlueScope Steel Limited and Loxley Public Company Limited, Thailand's leading trading company. It was founded in 1995 to manufacture quality steel products.

Location	:	The Eastern Industrial Estate, Map Ta Phut, Rayong Province
Area	:	161 Rai
Investment	:	8,000 Million Baht
Partners	:	BlueScope Steel Limited 75% Loxley Public Company Limited 25%
Production	:	Pickle Line Cold Rolling Mill Metallic Coating Line Paint Line

BlueScope Steel (Thailand) Limited represents an 8 billion baht investment in Thailand to serve the Building & Construction and Manufacturing industries with

- International quality products
- Superior technical and sales support
- Local manufacturing and support from a global company

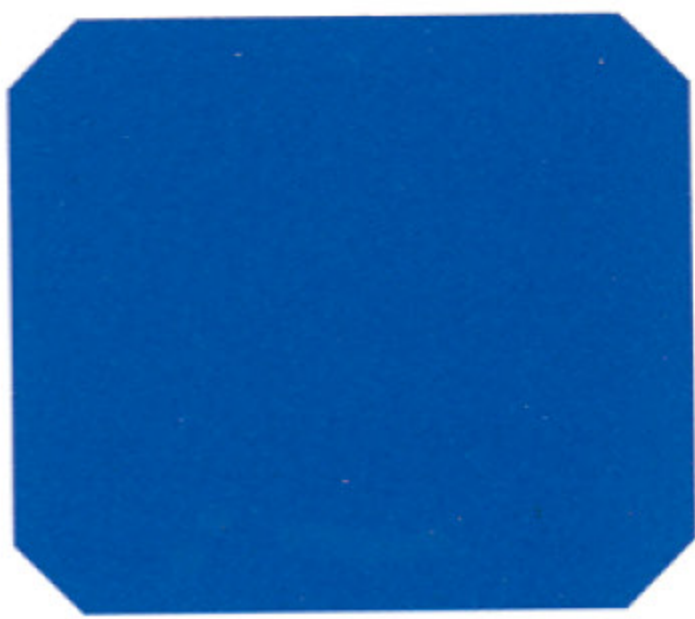

P-ZACS[®]

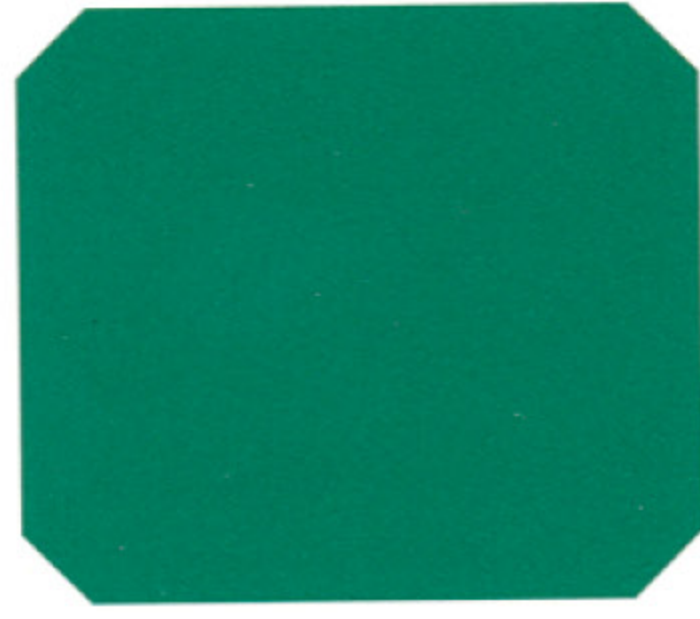

P-ZACS[®] steel

P-ZACS[®] steel has been developed by BlueScope Steel (Thailand) Limited using high quality paint over ZACS[®] RW70 steel, a zinc / aluminium alloy coated steel which gives it good corrosion resistance, excellent formability and makes it highly durable in Thailand's environmental conditions, an attractive appearance

Colorbond®

Colour Your World...With Our New Colour Range

Clean COLORBOND® pre-painted steel is a proven high performance pre-painted steel solution for roofing and walling. The long lasting beauty of Clean COLORBOND® steel is achieved by oven-curing, specially formulated high performance paint on a ZINCALUME® a zinc / aluminium alloy coated steel base

Core Colours : Clean COLORBOND® XRW steel

Supplementary colours

What makes

Clean COLORBOND® XRW steel so unique?

- Premium quality paint components.
- Long lasting colours
- Excellent corrosion resistance and formability
- Long life and lasting beauty
- Excellent resistance to tropical discoloration and tropical staining
- A cooler roof-using infra-red technology to reflect heat away from roof surface.
- Excellent chalk resistance and film erosion rate
- A high quality two-coat oven baked paint finish specially formulated for excellent exterior performance eg. roofing and walling
- Backed by BlueScope Steel

Superior Performance Guaranteed

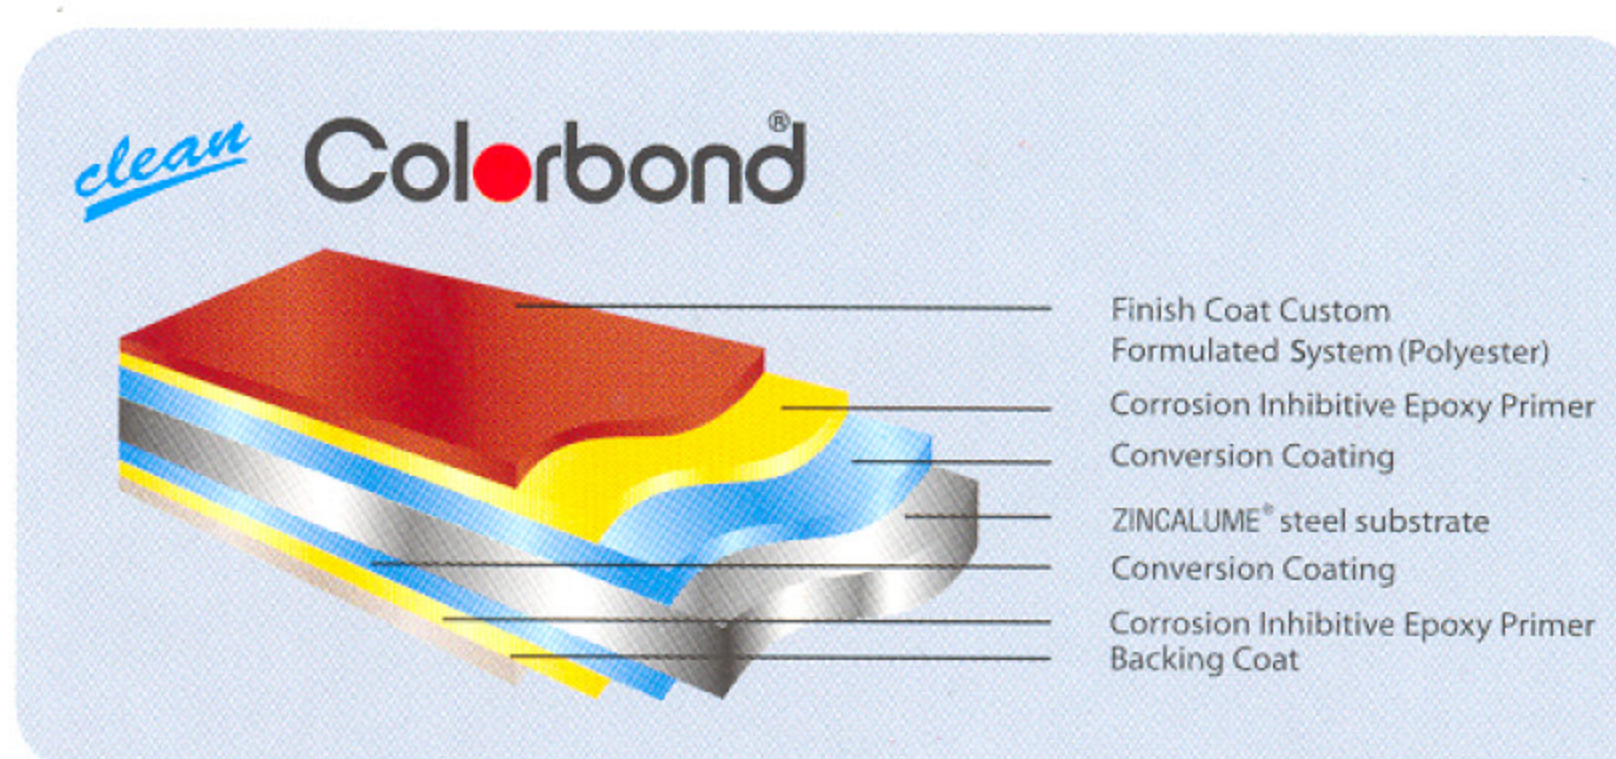

The performance of Clean COLORBOND® XRW steel and ZINCALUME® steel are GUARANTEED if installed and maintained according to recommended procedures

Preferred substrate

- ZINCALUME® AZ150 Grade 550 Skinpassed
- ZINCALUME® AZ150 Grade 300 Skinpassed

The secret of lasting beauty

Nothing retains its beauty like a roof made from Clean COLORBOND® XRW steel. The secret is the BlueScope treatment and pre-painting process

COLOUR YOUR WORLD WITH OUR NEW COLOURS

BlueScope Steel supports you all the way

A brochure of this size can do no more than briefly describe what Clean COLORBOND® XRW steel is about. There's much more to discover.
